'There will probably, in my opinfon, he nothing done with the trusts. Ynn see congress cannot afford to dis turb them.

"This to about all that I know of public interest lu conuection with the coming session of congress. In my opinion practically nothing will be

declared that he would naver vote for Grover Clevaland. That if he wera nominated ha would leave his party before ha would vote for him. "I would not vote for any man, not even my own brother, for a third term," he explained. "This is one of the reesons, and I am confident le sufficient, why I would never vota for Mr. Cleveland. But I don't think ha will ever be nominated."

Rabbl Enelow Will be the Orator at Louisville for Celebration

His Church to Commemorate Its Sixtieth Anniversary Jan-

uary t3.

HIS RAPID RISE CONTINUES

The congregation of Temple Adas Israel at Louisville to which Rabbi H. G. Enclow went from here, is preparing to celebrate is sixtieth anniversary Jenuary 12. This is one of the largest and most influential Jewish oburches in the country. During the years of the ministry of the inmented Adolph Moses his fame was carried far and wide. The original synagogue of this congregation was located on Fourth street, between Green and Walnut at Louisville and the present odlfice was completed in 1867.

The Temple Adas Israel has always been prominent in American Judaism. Among its rabbis are some of the best known expouents of the reformed faith in this country. Rebbi Emil G. Hirsch, of Sinai Temple of Unicago, whose erretic utternness have made him famous, was the immediate predecessor of Rabbl Moses. The career of Rabbi Moses is well known. His deeth wes n distinct loss to American Judaism. Rabbi Enelow, who now fills the pulpit, is a brilliant young minister. and was until two years ago pastor of Temple Israel in Paducah, where he is still very popular, and is recognized as one of the coming divines in the Unttad States.

Rebbi Euclow has been selected to deliver the inbilee address on January ii, and it is to be a master-plece of eloquence, if his friends' expectations are realized. The music is to be a feature and many, members of the congregation who live elsewhere will gather at Louisville to assist in the celebration. Rabbi Enclow has rapidly risen since he left Paducah. and is now one of the most prominent and populer ministers in Louis-

GREAT PUGILIST AS A REFORMER

an I. Saillyan Gives Advice on Many

John L. Sullivan has been giving some "good advice", to people who want to get on in the world. He says want to get on in the world. He says that the man who is a dead failure is a better adviser to others than the successful man, because he is a "warning" to others to avoid what brought him down. John gives this advica to young women: "I believe in athletic girls to the point that makes women strong physically, but I don't like to see a man-girl with no thoughts. women strong physically, but I don't like to see a man-girt with no thoughts of homs or domestic life. Take the advice of a rough adviser, spech as I am, and give the great part of your sound health and physical perfection to a little home somewhere. Inften think that we men might be better think that we men might be hetter men sometimes if the others did a litmen sometimes if the others did a nu-tile more to make our home more pleasant. Society takes up so much time nnw that home auffers. I don't want any one to think I approve of polygamy, but I have thought at times that the average man who mar-risd ought to have two wives—one to keep his home and make it pleasant, and the other to attend to the social functions, which are so numerous now-

of the things a wesierner misses in Massachusetts is the letter it. A teacher in one of the schools near Boston was conducting a class in spelling. The exercise emissisted in writing down sentences read aloud by the teacher. "Mistah Mo'se went to llawstin," said the teacher. The little girl from the weat set it down: "Mr. Moss went in Boston," and could not understand why she was credited with an error in the marrking of her paper later in the day. The little girl has been all but mobbed by her school-mates—in the cheerful way of these voung savages everywhere-for using the short O, the final G and the round R, and she doesn't know whether to surrender for neace, or is stand for her American right to give enrect ut-lerance to the language of the country. One of the teachers did try to as-similate the R. She even insisted that her pupils should use it. You must say "mother," she urged. "Mother," lisped the nrchin addressed. "Theah, that's proppah," said the teacher, approvingly.-National Magazine.

HOT HOAST FOR PETER.

This Peter Arland who played the otraged husband act, on account of insulted wife, at the Pianter's hotel in St. Lonis, seems to us to be about as great a chump as could be found. When a man casts reproach on the good name of his pure, highminded, virtuous wife, in the manner that Arland did, he should be exposed and pnuished, and then refused cont.t nance of all respectable society. His act was even more cowardly than that of Dr. Dunean. One sassesinated a man in defense of his lawful wife, the other assassinated the character of his trne wife, in defense of a woman who hs represented was his wife, has who was not the wife. Infamous! AN ASSISTANT-SUBJECT

"Will you kindly accompany ma to my rooms, sir?"

The speaker, who touched my albow while I was pessing along the street was one of the most singular looking persons I ever saw. Ills eyes were large and dreamy, his body small and delicately made. He was bent and withered.

"Why should I do that?" I asked. "Becanse I desira your assistance."

"Is any one In danger, dying?"

"No one is in danger, no one is dy ing, and yet it is a metter of death about which I wish your assistance." "I sm sorry, sir, but I am burrying to keep an engagement and cannot comply with your request."

"Your engagement can wait. I cannot. I have been many years coming to my present position and do not intend to defer satisfying myself as to the result of so much thought. Come. "But you can at least give me some iden as to the nature of this assistance you require."

"That can be better expinined in prectice than in word, I am a poor talker, and this crowded street is not a fit place for communicating what one may have to eas. There are too many people passing. Come to my many people passing. Come to my bouse. There we will be clone. There I can explain to you that which has occupied the principal portion of my life. I propose to honor you with a confidence never before bestowed on any living person. Only the dend have ever received it. The time has now arrived for me to impart it to the liv-ing."

What was my eurprise to find my self following this strnnge creature as though 1 had been his dog. He took me through anrow streets, I supposing every minute that he would dive into some of the mean buildings by the way, but he did not. After n jour ney that section dintertuinable we found ourselves in a thinly settled district, and my conductor finally led the way into a large brick dwelling that stood sione. He had no sooner commenced to speak than his eyes flashed until they seemed to me to be like two live coals.

MILES ON THE TIES

A Derailed Car Ran Eight Miles Without Wrecking the Train.

Invoice Being Taken of All the Patterns Preparatory to Sending Them to Memphis.

NOTES RAILROAD

One of the most peculiar accidents on record happened on the Lonisville. division of the Illinois Central last night between Eddyville and Onmberland river. A loaded freight car in the second section of freight train No. 151. in charge of Engineer Friez and Conductor Tierney, was dereiled by a broke flange at Eddyville, where the train proke in two jast night at 9:80 o'elock. The break was not discovered until Cumberland river was reached, a distance of eight miles . and the car traveling all that distance at a rate of at least 35 miles an honr without causing a wreck. At Cumberland river bridge the derailed car was discovered and on returning to Eddyville it was seen where the ear had traveled ail the way on the ties. No damage was done the oar except a loosening of a few bolts and slight Mr. E. W. Whittemore went to damages to the wheels. It is consid-Grand Rivers this morning on hasi- ered a miraole that the entire train was not ditched and badly wrecked, and the railroad men say that they accident, where the trein traveled so far with a car off the tarek, without disastrons results.

> Mr. Wooldridge, the chief patternmaker of the local Illinois Central shops brought all the patterns from the Sheiton foundry to the local shops yesterday and is today engaged in invoicing the same preparatory to sending them to Memphis where all the easting and monlding work for the local shops will hereafter be done. As published this week the local foundries have given up the Illinois Central contracts and the work now goes to Randle and Co. of Memphis, a firm that formerly held a similar contract with the Illino's Central. Mr. Wooldridge will have the invoice complete in a few days and the pasterns will be sent to Memphis lmmediately upon the completion of this

All the stop employes except a few roundhousemen, engineers and firemen are off duty today, the Illinois Central shops having closed down for the holiday. The machine shops and woodworking department are silent today of Paducah Distillerles Co., Inc. for the first time in many months. The only men working about the shope are laborers who are eleaning up. The employes in the master mechanio's office were doing a little work this morning, but will be let off some time today for a few hours holiday.

There will be four big Atlantic type engines sent to the Cairo and Memphis divisions of the Illinois Central on January the first. These engines will of age, appeared at the city and Obicago express trains. The 1001

A BIG HIT.

"A Wise Woman," the comedy farce hy Wilfred Clark, has, according to the reviews seen of the production, scored the most emphatic kind of a hit. It is serving as a vehicle to display the talent and ability of one of America's daintiest and most fetching comedieunes, Marie Lamonr, for the past several season with Angustin Daly's company, and she is oredited with having soored very strongly in the production.

literature. He had grown tired of hearing the postman come down the hallway with refusals of his produc tions and was couvinced that luck was against him. Men must have a scape-gost, and when their energies fall of accomplishing some desired end, pos-sibly through their own blindness or mismauagement, they attribute their fallnre to luck.

So Gerald sat and thought of his prospects, and it did not require much effort to cover them sil. He east up his accounts mentally and balanced his assets against his liabilities. Of the latter, thank God, there were none to amount to snything, and of the former—well, the account balanced nicely.
His watch was silver, and old at that.
His lawbooks were not numerous, and old lawbooks are a drug on the market at any time. His furnithra was rickety and cheap. So there was nothing to be gained in trying to sell that. He threw out his hands in a sort of deprecating appeal to the world as he sat there in the darkness. What was there to live for? There was nothing in life that he could see, He had no intimate friends— he had been too much wrapped up lo his business to make them.

He had many pleasant acquaintances, but they are rarely friends. A friend is one who is willing to give something for nothing, and Gerald knew that there was none such among the men who greeted him pleasantly day after day. He had no family save a distant consin or two, who would regard it as a bleasing, perhaps, if he were out of the way. "Out of the way." That phrase woke a train of thought in his mind. He dropped his head upon his hunds and thought of getting rid of his miserable life. He sat there and heuri The colored janitor shuffled down the hallway and closed the stair-case window, grumbling the while about the weights being too heavy and the windows being likely to open them-selves "jes" when they's a showsh an nichbe a bluzzard a-rngin.

But Gerald did not hear him. The coom was growing darker and colder at the time, but the mun's heart was so much darker and colder that he felt nothing. He was thoroughly discouraged, and when a man gets thoroughly discouraged; when, like this one, his funds and his prospects are all gone; when the afreets, and the factories, and the newspupers, are all filled with forms and names begging for employment, and the discouraged man knows no trade or profession save the one which has failed, then comes the desire to sleep—to die—to end the futile strug-gie for existence anyhow, to stop thinking. It goes further than a discussion of the question, "Is life worth living?" and it becomes merely a hald state-ment, "Death were better."

Geraid reached for the drawer in his desk, where his revolver, loaded with ball, isy close to his hand. It would be a quick way out of the difficulty—a momentary twinge of pain, then bless-

The 6 o'clock bells were ringing, and the man rose with a bitter smile. The mocking bells rang on, merrily, merrily chasing the tones up and down the scale. He looked at the pistol, cocked it. Hark! There cume in through that hall window, which must have opeued itself agaio, the strains of "Corona-The Irelis had ceased their hymn tunes-the times his mother used to play on the old melodeon and sing to blin. He stopped, and the pistol slowly fell by his side. Then the sir changed, and the chimes rolled the graud strains of "Adeste Fideles"—

Was there nothing at all in life worth living for? Had he not advised a dis-consolate friend to cheer up and make one more step out to better things? The pistol dropped from his hand ou to the table, and the air played by the belis was now one of comfort---

THE KRONPRINZ _FRIEDRICH

[Original.]

When relief was sent to Greek, then on the verge of starvation in the srette regions, I made up my mind to ship for the expedition. I was young and full doctor of enthusiasm and a desire to see him. strange sights, to taste strange experience. strange sights, to taste strange experience. By craving was satisfied to the fullest extent. Indeed, I have beretofore refrained from saying anything about a certain sight which suddenly come to me and departed as suddenly for fear that my friends would regard me as the subject of hallucinations. An It is, I shall refrain from diviniging my lightly strange of the suddenly control of the ine as the subject or hallucinations. An it is, I shall refrain from divulging my identity in telling the story.

We were sailing northward through Baffin's bay. For days the weather had heen bad—high winds, rough sess, buge

cakes of floating ice, everything to keep us under a strain. Then sil at once the wind subsided into a dead caim, tha thermometer rose rapidly, and we were encompassed by a dense fog. There was nothing to do but drop anchor and wait. A alogic man was quite anticient to maintain a watch, and the captain, having arranged the succession, nil hands, except the first ontlook, went below and to sleep. I was the third man called and went on deck about 3 in the morning, though it might as well have been 3 in the afternoon, for there was about the same amount of light-that is, a sort of twilight. I sat on the capstau peering out at nothing. True, there was fog. hut what is fog when one is in the midst of it but nothing? There was a duil, monotonous sound of swells beating against the ship's side beneath.

My senses became duiled, and my eyes hecame heavy as lead. Then I did what I should not have done, but could scarcely help—I fell asleep.

I swakened with a consciousness of

nome terrible impending danger. As I opened my eyen I noticed that the fog had grown thinner and I could see far ther, though not even then over a few hundred feet. Suddenly dead shend something loomed up dark before me The changes that come over it were a matter of seconds, though it require minutes to give them. First, as I have said, it was something black; then it was the dim figure of a ship under said coming straight down on us; then it was a vessel's bow, on which I read the letters "Krongeinz Friedrich" and several men in queer caps and couts and knee breeches running about ex-eltedly, one livid face, with frightened eyes, looklug over the gnnwale.

There was no hope but that the shock would aink both vessels, though how a sailing ship could be coming at auch speed with no wind I could not understand, though there was no time for any thought except that of the dreaded collision to make any impres-sion on my mind. My first act was to jump from the capstan and selze one of the bars, though to attempt to ward off a full rigged ship with such an implement was absurd. Neverthe-less when I turned sgain toward the vessel I was surprised to notice that I had been mistaken in her speed or that it had suddenly moderated. The con-sternation of those on her decks had subsided into a resolute determination to use every means to render the shock as light us possible. A man stood on the gunwale, with one hand on the ratlines, giving orders, which were obey-ed with alacrity. Only a strange muffled babhla came to me in a that I did not understand, faint and confused, as if mingled with the roar of a tempest.

Slowly, but surely, the stranga bow came on, overtopping us, her crew reaching out with long oars, some of them lowering coils of rope, all waiting the inevitable abook. When it came, our reasel made n yawning gap in the stranger's bow. Sha trembled, rocked backward and separated from ns. A man climbed on the bowsprit, where he coold see the hreak, and shouted something to the man holding the ratlines. Then there was an order, some of the crew rushing one way and others another. Meanwhile the ship and crew grew fainter as they drifted away from ns. The last act I witnessed was four men dragging a sail forward. which i presumed they were intend-ing to lower over the hole that had been store in her bow. Then all faded into nothingmens, and there was left only the fog. It seemed to ms that the vessel had come from and returned to the echolesa shore.

Before being relieved I fell anleep again and was awakened by the re lief watch. I expected him to speak of the shock, but he did not, and I went helow and turned in without mention ing the subject. Nor did any one of the ship's company speak of it the next day, but they were all very much fatigued and doubtless siept too sound-ly to feel it.

When we got home, I hanted every where for some account of a ship called Kronprinz Friedrich, but could find nothing. Some years later I shipped for a voyaga to Bremen and while there obtained leave to go to Berlin. where I searched tha marine records I found that in 17- a vessel named for the crown prince of Prussia, after ward Frederick the Great, had salled for Greenland and had never after ward been heard from.

ilad I acen the phantom of the lost ship? Ilad sho been wrecked in a col-lision? I found no record of any ship reporting such collision. Why was she sailing with the wind when there was a fog? Why did the roless of her crew come to ma as it mingled with the roar

What especially interested me was to prove that the sight was not a balluct-natio and that I was of sound mind-

literature. He had grown tired of hearing the postman come down the hallway with refusals of his produc-tions and was convinced that luck was against bim. Men must have a scape-goat, and when their energies full of accomplishing some desired end, pos-sibly through their own blindness or mismanagement, they attribute their failure to luck.

Reliure to luck.

So Gerald sat and thought of his prospects, and it did not require much effort to cover them all. He cast up his accounts mentally and balanced his assets against bis liabilities. Of the n, thank God, there were uone to int to snything, and of the former il, the account balanced nicely, watch was silver, and old at that. wbooks were not numerous, and wbooks are a drug on the market time. What was there to live There was nothing in life that he see, He had no intimate friends— id been too much wrapped up in siness to make them.

He had many plensant acquaintances, but they are rarely friends. A friend is one who is willing to give something for nothing, and Gerald knew that there was none such smong the men who greeted him pleasantly day after He had no family save u distant in or two, who would regard it as easing, perhaps, if he were out of way. "Out of the way!" That use woke a train of thought in his He dropped his head upon his and thought of getting rid of his ble life. He sat there and heard g. The colored janker shuffled down the hallway and closed the stair-case window, grumbling the while about the weights being too heavy and the windows being likely to open them-selves "jes" when they's a showah an mebbe a bluzzaed a-ragin."

But Geraid did not hear him. The coun was growing darker and colder at the time, but the man's heart was so durker and colder that he felt ng. He was thoroughly discournothing. He was thoroughly aged, and when a man gets thoroughly disconraged; when, like this one, his funds and his prospects are all gone; when the streets, and the factories, and the newspapers, are all filled with forms and asmes begging for employrorms and names begging for employment, and the discouraged man knows no trade or profession save the one which has failed, theu comes the desire to sleep-ho die-to end the futile struggle for existence my how, to stop thinking. It goes further than a discussion of the question, "Is life worth living?" and it becomes merely a hald state ment, "Desth were better."

Gerahl reached for the drawer in his cak, where his revolver, loaded with ball, lay close to his hand. It would be a quick way out of the difficulty—a momentary twings of pain, then blessed oblivion.

The 6 o'clock bells were ringing, and the man rose with a bitter smile. The mocking bells rang on, merrily, merrily chasing the tones up and down the scale. He looked at the pistol, cocked Hark! There came lu through that hall window, which must have opened itself again, the strains of "Coronn-The bells had ceased their mockery and were ringing out the old hymn tunes—the times his mother used to play on the old melodeon and sing tn him. SAVED BY THE BELLS THE KRONPRINZ FRIEDRICH

When relief was sent to Greely, then ou tha verge of sinvation in the arctic regions, I nade up my mind to ship for the expedition. I was young and full of enthusiasm and a desire to see him. of enthusiasm and a desire to see strange sights, to tasta strange sights, to tasta strange sales. "That's a question for you to antence, My craving was satisfied to the fullest extent. Indeed, I have hereto fore refrained from saying anything about a certain sight which suddenly who use took you to the operating came to me and departed us suddenly table, you didn't know who you were took you to the operating table, you didn't know who you were. Do you know now?"

"Know who I am? Of course I do." it is, I shall refralu from divulging my identity in telling the story. Wa were salling northward through

Baffin's bay. For days the weather had been bad—high winds, rough seas, buge cakes of floating ice, averything to keep us under a strain. Then all ut once the wind subsided into a dead calm, the thermometer rose rapidly. and wa were ancompassed by a dense fog. There was nothing to do but drop unchor and wait. A single man was quita sufficient to maintain a watch, and the captain, having arranged the succession, all hands, except the first outlook, went below and to sleep. I was the third mnn called and went on deck about 3 in the morning, though it might as well bare been 3 in the afternoon, for there was about the same amount of light—that is, a sort of twilight. I sat on the capstan peering out ut nothing. True, there was fog. but what is fog when one is in the midst of it but nothing? There was a dull, monotonous sound of awells heating against the ship's side beneath My senses became dulled, and my eyes became heavy as lead. Then I did what I should not have done, but could

scarcely help—I fell asteep.

1 awakened with n consciousness of some terrible impending danger. As t pened my cyes 1 noticed that the fog had grown thinner and 1 could see far ther, though not even then over n first hundred feet. Suddenly dead ahead something loomed up dark before me The changes that came over it were a matier of seconds, though it required minutes to give them. First, as I have said, it was something black; then it was the dim figure of a ship under sa! coming straight down on us; then was a vessel's bow, on which I reach the letters "Kronprinz Friedrich" und several men in queer caps and coats and kuce breeches running about ex citedly, one livid face, with frightened eyes, looking over the gunwale.

There was no hope but that the shock would sink both vessels, though bow a sailing ship could be coming at such speed with nn wind t could not anderstand, though there was no time for any thought except that of the dreaded collision to make any impres-sion on my mind. My first act was to jump from the capston and seize ona of the bars, though to attempt to ward off a full rigged ship with such an implement was absurd. Nevertheless when I turned again toward the vessel I was surprised to notice that I had been mistaken in her speed or that It had suddenly moderated. The con-sternation of those on her decks had subsided lulo a resolute determination to use every means to render the shock as light as possible. A man stood on the guuwale, with one hand on the ratlines, giving orders, which were obey ed with alacrity. Only a strange muf-fied babbin camn to ma in a tongue that I did not understand, fulnt and coofused, as if mingled with the roar of n tempest.

Slowly, but surely, the strange bow cama on, overtopping us, her crew reaching out with long cars, some of them lowering coils of rope, all waiting the lnavitnble shock. When it came, our reasel made a yswining gap in the stranger's bow. Sha trembled, rocked backward and separated from us. A man climbed on the bowsprit, where he could see the break, and shouted something to the man holding the rat-lines. Then there was an order, some of the crew rushing one way and oth ers unother. Meanwhiln the ship and crew grew fainter us they drifted away from us. The last net I witnessed was four men dragging u sail forward, which I presumed thay were intending to lower over the boln that had been atove in her bow. Then all faded into nothingness, and there was left only the fog. It seemed to ma that the vessel had come from and returned to the echolesa shore.

Before being relieved I fell saleep again and was uwakened by the relief watch. I expected him to speak of the shock, but he dld not, und I went helow and turned in without mention ing the aubject. Nor did any one of the ship's company speak of it the next day, but they were all very much fatigued and doubtless slept too sound to feel It.

When we got home, I hanted avery where for some account of a ship call ed Kronprius Friedrich, but could find nothing. Soma years luter I shipped for a voyaga to Bremen and there obtained leave to go to Berlin, where I seurched the marine records. I found that in 17— a vessel named for the crown prince of Prussia, afterward Frederick the Great, had salled for Greenland and had never after ward been heard from.

Had I seen the phanlom of the lo ship? Had abe been wrecked in a col-lision? I found no record of any ship reporting such collision. Why was she sailing with the wind when there was a fog? Why did the voices of her erow come to me as if mingled with the roar of a tempeat? These things I cannot

What especially interested me was to prove that the night was not a builded nation and that I was of sound mind.

"When I went on, I knew about half of my first scene, which was the longest one I had in the play. But I didn't care. I'd niways been troubled with stage fright more or less, but not this time—not a fright. When I forgot, I waited calmly for the prosupter, who was off left, having a fit. Ity and by I had to go across right and sit down by a table. I knew I couldn't hear the s table. I knew I couldn't hear the prompter there, so I walked over and got the table and dragged it clear across the stage, and the madience applauded because I did it so naturally.

"Then I went crazy, and what heppened afterward I sesreely know. But when I came off after the thrilling cli-max of the scene I fell into the lending lady's arms, and she langed mu up tight. Brenda was silent. She was saying to herself; "I am afraid. My heart is trembiling for this girl."

"It doesn't matter when, it doesn't matter where," continued Einle, "hut when and where fate pleased I met n man who took a great liking to me. I know little now, and I knew far less then, though it wasn't so long ago. He was an educated man, and I was not an educated girl, but I wished that I was. We met in n merry party, and I expected him to talk frivolity. He didn't. His conversation was very im-

proving. Oh, he took n deep isterest in my mind.
"What idlots girls are! Why, this man read me like n book. Ho saw that I was full of yellow covered embitions and lett cent aspirations. He had probably seen a great many girls equelly deserving of encouragement. I thought he was splendid. I put my hand in his and prepared to ascend the hill of

"It was a supper after the theater, and we rode to my bouse together in a hansom afterward at 2 o'clock in the morning, and the chaperon of our morning, and the enaperon of our supper party rode in another direction in another hansom with another man. My secort talked about the 'ltubalyst' of Omar Khayyam, and I then first appreciated the beauties of that sublime composition. Afterward be spoke of my work in a very earnest and en-couraging way. He let me know that ho had been quite a studeut of the drama and that his criticism and advice would be of the greatest assist ance. That, at least, was the inference. Finsily he hade me good night on the doorsteps, with a gentle sadnes. "I had no intention of going," said there was a romance in his life. That made me feel safe, for at that time I surely did not want him to fall in love with me, and I still retained the dein-sion of my earlier years that romances in a person's life acted like vaccina-

The gentleman called npon me the next afternoon, and he was very entertaining as well as instructive. Ha brought ms a large book. I forget what it was about. The next day he took me out to dinner, and I remember that he gave me some very shrewd and helpful criticism about my work Then I didn't see him for two whols days, and I began to miss him very much. At that time I was lonsly. My girl friends in the profession were all out of town, and some of the men in the company who wished to be kind to me were rough in their ways-not at all like the cultured gentleman whose acquaintance I had been so fortunate as to make."

"ltut didn't yon ask about him?" said Brenda, "Didu't you find out how he stood socially?" Elsie laughed.

"Hew was I to find out any of those things?" she said. "The world is a hig place, in the midst of which is society as you know it, a little mutual lnsur as you know it, a little instual insur-ance company for the purpose of pro-tecting its members, especially the younger ones, against accidents. I only knew that I liked this man and that be seemed to be a true friend to me. What other guide was I to have except my

other guide was I to have except my own less nitful ignorance?"
"I don't know," said lirenda nloud, but to herself sha was saying: "The more wrong she has suffered the more I want to help her. I won't let any-

thing take her away from me."
"Presently I heard the story of the romance in his life," continued Elsie. "It appeared that the gentleman was married-most anhappily. Where was his wife? He had permitted her to obtein a divorce. This was pure generos ity on his part. He would rather suf fer an injustice than attack in the courts the woman he had sworn to love and cherish. He mentioned several high society precedents for this conduct. In fact, he convinced me that divorce was, upon the whole, a mark peared that his was a sort of limited by enough, right in the midst of it nil divorce which did not permit him to remarry, but after this aspect of it had been presented to ms on several occasions he discovered that he could marry under certain conditions with the full sanction of the law and benv-

"Well, Itrenda, let's be fair. I wanted to marry the man. I perhuaded my-self that I was in love with him. I wasn't. I can see that now. I wasn't within a million miles of loving him, but I was ready to be loved, lirenda; that's the truth about it. My heart was full of tenderness, and I saw the whole world rose tinted in the light of the derived love. That's needless. But the dawn of love. That's poetical. But wait a minute. I am coming to something very unromantic. I wrote this story, Brenda-wrote it all down for a great heart thrilling novel-and had sense enough to burn it. But thet helps me to tell it straight, and you'll catch fine phrases now and then, but

"Before it was time to t an answer andden business of great importance called my flance to Philadelphia. How opportunel Well, Brenda, I packed a little hand hag and went. What must you think of me?"

Brenda bent down gently and kissed Elsle's hand and held it against her

"I don't know the story yet," she said, "but you have portrayed a thorough acoundrel. And you have niso shown me a trusting and true bearted girl who went to be married with an innocent heart. Blessed heaven! Think of a man for whom a young and pure girl will go out into the world like that, as if to walk in the fields! Should not every fiber of his soul he thrilled to loyal-ty for all bis life?"

"The gentleman in question had no soul," said Eisle. "I think he will be spared all punishment hereafter, as the brutes are. Let us proceed, Brenda, dear. The semsinder of the story is not long. We took the II o'clock train and renched Philadelphia in time for lnneheon. Our marriage was to be kept secret for awbile, and there seem-ed to be some alight objection to the public dining room of the hotel where our hanson set us down. However, we lunched there quite heatily, for I had no appetite. Then we re-entered the hansom and went to look for a minister. We had remarkable difficulty in finding one, considering that Philadelphia is a large city full of churches, but we finally succeeded. Then it appeared that we had neglected to comply with certnin formalities, but the clergyman was able to rectify the matter, and so we were mnrried pitifully, as I see it now, with stupid old servants and a chance laborer who happened to be at work in the house as our witnesses

"When we got back to the hotel, it was 6 o'clock, and I was nearly famished. Wa hurried right into the dining room, and my husband ordered a great spread, with champagne, for our miscrable celebration, and now I will tell you the unromantic part. In the midst of that dinner, and while I fanmidst of that dinner, and while I fancied that I was eating with a splendid appetite, I was suddenly selsed with the most awful pain that ever devastated my poor little atomach. Yes, Brenda, it was a regular, terribin stomach ache—just pain, without a hit of nansea. I felt as if some one had my stomach in his hand—a band about the size of Captain Neale's—and was crushing it to nieces.

crushing it to pieces.
"My hasband said he guessed it would soon pass away, but it didn't, and so he left his dinner and ran out to n drug store to get me something to take. When he came hack, I took it, take. When he came hack, I took it, and I didn't feel any worse, because that wasn't possible, but I certning felt no better. in a few minutes I be gan to realize that I was going out of my wits. "I have your promise?" said he.
"I can't be sure of what you mean," sha auswered, smiling, "but whatever it is you have it?"

They looked straight into each oth er's eyea for a moment. Then they langhed together lika happy chil-drea. Keadall's hands closed more tightly upon hers. Ha released them gently and lacliaed his head as he turned and left the room.

"Well, considering that that was only a little joke," said Elisie, "I don't think I ever naw so much for the money."

"What could the man have meant?" exclaimed lireada.

"He probably meant," said Elsic, "that you were authing more to him than a geutieman whom ha had met at tha cinb.

"My dear child," replied Breada, "this is altorather to said. ls altogether too sudden and lncompreheasible to suit a conventional per son like myself. This weird firtation of the madhouse which Dr. Keadsil and I seem to have begun in a manaer shamelessly public may be only the temporary aberration of our minds and bave nothing to do with our hearts. I hope it will strike in; I do most devoutly. Then you and Clarence could arrango your agreeable romance without remorse"-

"That is ended," said Elsie. "In fact, It never began. Breuda, you opened your heart to me; let me open mine to you. I want some one in the world, some oas whom I care for, to know tho whole truth."

"it would excite and worry ma if I should stop now after I have made up my mind," said Eisie. "Listen. You shall know everything hut a name. I can't tell you that."

Breuda was saleat. She was saylag to herself: "I am afrald. My heart is trembling for this girl."
"It doesn't metter."

"It doesn't matter whea, it doesn't matter where," contlaaed Eisle, "hut when aad where fate picased I met a man who took a great liking to me. I kaow little now, and I kaew far less then, though it wasa't so long ago. He was an educated man, and I was ot an educated girl, but I wished that We met la a merry party, and expected him to talk frivolity. Ho didn't. His conversation was very improving. "What idiots girls are! Why, this man read me lika n book. Ho saw that I was full of yellow covered ambitions and ien cent aspirations. He had probably seen a great mnay girls equally descrylag of encouragement, I thought he was spleudid. I put my hand in his and prepared to ascend tha hill of

learning.
"It was a supper after the theater, and we rode to my house together in a hansom afterward at 2 o'clock in the morning, and the chaperon of our aupper party rode la another direction ln another hansom with another man. My escort talked about the 'Hubaiyat' of Omar Khayyam, and I then first appreciated the beauties of that sub-lime composition. Afterward he spoke of my work is a very caracst and ca-couraging way. He let ma know that he had been quite a studeut of tha drama sud that his criticism had advice would be of the greatest assistance. That, at least, was the inferenca. Finally he bada me good night on the doorsteps, with a gentle sadness la his manaer which let ma know that there was a remance in his life. That made me feel safe, for at that time I sarely did not want him to fall la lova with me, and I still retained the deliaion of my earlier years that romances la a person's life acted like vaccias-

"The geatleman called upon me tha next afternoon, and he was very enterhrought me a larga book. I forget what it was about. The next day he took ma out to dinner, and I remember that he gave me some very shrewd and helpfal criticism about my work. Then I didn't see him for two whole days, and I began to miss him very much. At that time I was lonely. My girl frieads la the profession were all out of towa, and some of the men is the company who wished to be kind to me were rough in their ways—not at nil like the cultured gentleman whose acquinitance I had been so fortunate as to make."

"Bat didn't you ask about him?" said Breudn. "Dida't you fiad ont how ha stood socially?"

Elsie laughed.
"Hew was I to find out any of the things?" she said. "The world is a hig place, in the midst of which is society as you know it, a little mutual insurance company for the purpose of pro-tecting its members, especially the younger ones, against accidents. I caly knew that I liked this maa and that ha seemed to be a true friend to me. What other guido was I to have except my

own beastiful gnorance?"
"I don't kaow," said Brendn aloud,
hut to herself she was saying: "Tha more wrong she has suffered the more I want to help her. I won't let any-thing take her away from me."

"Presently I heard the story of the remauce in his life," continued Elsie. "It appeared that the geatleman was married-most unhappliy. Where was his wife? Ho had permitted her to obtain a divorce. This was pure generos-ity on his part. He would rather suffer an lajustice than attack in the courts the woman ha had sworn to love and cherish. He mentioned several high society precedents for this con-duct. In fact, he convinced me that divorce was, upon the whole, a mark divorce was, upon the whole, a lety, to bring me home. And, strange-peared that his was a sort of limited divorce which did not permit him to remarry, but after this aspect of it had been presented to ma on several deceasions he discovered that he could be a limited by the several deceasions he discovered that he could be a lety, to bring me home. And, strange-lety, to bring me how to bring me home. And, strange-lety, to bring me home. And, strange-le had been presented to ma on several occasions he discovered that he could marry under certain conditions with the full sanction of the law and heav-

ed to marry the maa. I persuaded my-self that I was la love with hlm. I wasa't. I can see that aow. I wasn't within a milliou miles of loving bim, hut I was ready to be loved, Brends; that's tha truth about it. My heart was full of tenderness, and I saw tha whole world rose tinted in the light of the dawn of love. That's poetical. But the dawn of love. wait a miaste. I am coming to some-thing very uaromantic. I wrote this story, Breada—wrote it all down for n great heart thrilling novel-and ther had sense enough to burn it. But that helps me to tell it straight, and you'll

catch fine phrases now and then, but you won't laugh at me. "Well, we were engaged, of course. My fiance presented me with a diamond riag, and diamonds are my soul's delight. After I got this oac I ased to mond ring, the design of this oad I ased to keep a little light burning in my room at night so that I might see it sparkle if I happened to be wakeful. "Where did fate find this precious rascel?" whispered Breada. "And why did fate send him to you?"

"Why did fate sead a good man after-ard?" said Eisle. "Why not before? ward said risse. Why not before Well, 'tha moving flager writes and, having writ, moves on'— It was to be. Flaally the gentleman aanouaced that a marriago under the laws of the state of Pcunsylvania would meet the re-quirements of the situation. I was a good deal startled by this definite suggestion, and I wrote to my mother on the subject for the first time. The geatleman took the letter to post, and it has not been delivered yet, thank heny

"Before it was time to tan answer saddeo business of great importance called my flance to Philadelphia. How opportune! Well, Breuda, I packed a little hand bag and went. What must you think of me?"

Brenda beat down gently and klased Elsie's hand and held it against her

face. "I don't know tha story yet," sha said,
"but you bave portrayed a thorough
scoundrel. And you have also shown men trustiag and true hearted girl who weat to be married with na inaccent heart. Blessed heaven! Thiak of a man for whom a young and pure girl will go out late the world like that, as if to walk is the fields! Should not every fiber of his sout be thrilled to loyal-ty for all his life?"

"The gentleman in question had no sout," said Elsie, "I think ho will be spared all punishment herenfter, as the brutes are. Let as proceed, Brenda, dear. The remainder of the story is act long. We took the 11 o'clock train and reached I'bliadelphia ia time for luncheon. Our marriage was to be kept secret for nwhile, and there seem ed to be some alight objection to the pablic dialag room of the hotel where our hansom set us down. However, our namon set us down. However, we luached there quite hastily, for I had no appetite. Then we re-entered the hansom and weat to look for n miulster. We had remarkable difficulty in fielding one, considering that Philadelphia is a large city full of charches, but we finally succeeded. Then it appeared that we had neglected to comply with certala formalities, but the clergymaa was alls to rectify the matter, and so we were narried pitifally, as I see it now, with stapid old servants and a chance inborer who happened to be at work in the house as our witnesses.

"When we got back to the hotel, it was 6 o'clock, and I was nearly fam-ished. We hurried right into the dinlag room, and my hushand ordered a great spread, with champagna, for our miserable celebration, and aow I will milerator cerebration, and now I will tell you the unromantic part. In the midst of that dianer, and while I fan-cled that I was eating with a spleadid appetite, I was suddealy selzed with the most awful pain that sver devas-tated my poor little stomach. Yes, Brenda, it was a regular, terribla stomach acho—just pala, without a bit of nassea. I felt as if some oas had my stomach lu his hand-a haud about size of Captala Neale's-and was

crushiag it to pieces.
"My hashaad snid he guessed it would soon pass nway, but it didn't, nad so he left his dianer and ran out to a drug store to get me something to to a drug store to get me something to take. When he came back, I took it, and I didn't feel any worse, because that wasn't possible, but I certoinly feit no better. Is a few minutes I be-gan to realize that I was going out of my wits. I talked insancly and saw thiags that werea't there. The next my wits. I talked insancily and saw thiags that werea't there. The next thiag I kaew we were riding up in nu elevator, and it seemed to go up for a week. Thea there was a woman leading me along n hall and late n room and she began to take off my clothes in the bedroom of a little suit. I stared at her and asked her who she was.

"'I'ai the assistant housekeeper,' should. 'I belong to the hotel.' "As if she had been a piece of furni-ture. Then I asked whers my hus-hand was, and she said he had gone ont for a doctor. So sha made me lie down. I robably I seemed to be there on that bed, but in reality—my own reality—I was playing lo that old barn-

storming company and studying, studying, studying on long parts that were always changing, but sometimes I was a little girl sgala in a town way out lu Michigan, ruaning through the streets, with my loag legs flying and my heels touching the hack of n head, as my mother used to say, stole the neighbors' flowers in t scented June evenings and staid out under the little whispering stars till my mother came, weeping with anx-

man. 'I was afraid to wait any longer, so I got this geatiemaa, who is New York doctor stopping la tha

hotel.'
"Then I felt something sharp prick lag my arm and afterward the pain was cesier, and my mind suddenly became as clear as it is sow. I heard the doctor say that I would be all right whea I had had some sleep, and thea my husband appeared, looking in between the curtains that hung by the hedroom door. It seems that ha brought a doctor, but had left word for one to come.

East Tennessee Telephone Company Has Nothing to Propose.

Its Service Justifier the Rates, it Deolares -- Answer to the Merchants and Professional Men.

JOINT COMMITTEE TO MEET

Mangager A. L. Joynes, of the East Telephone company, today received from his company instructions relative to the requests made recently of a joint committee representing the merchants and professional men of Padncah for rates to be considered with those submitted by the People's Independent Telephone company. In parsnance of the reply of the company, Mr. Joynes today addresses a letter to the members of the committee, which was turned over to Mr. Will E. Cochran and will be submitted by him to the joint committee at a meeting to be held as soon as he can oali the members together.

The Independent Telephone compa my made its proposition at the first meeting, but it has not been made pub-

The East Tennessee company by its reply received today, refuses to make acy proposition. It offers the present rate, and virtually says that while the rate in the inture may be lower, accordtng to oircnmstances, at present it will remain the same. It does no desire to commit itself on the question of rates. The letter says further that the present schedule was made in Paducah a few years ago in deference to the wishes of the Commercial oluh, the int ter representing that it did not desire to have another company, and that if the East Tennessee company would

make the rate they desired, it would

by the end of the talked of opposition. The company made the reduction, and claims that it has not made any that it has furnished its subscribers with all the latest improvements, kept its plant modern and np-to-date in every respect, adopting every new invontion and adding every improved apparatus that would better the service. All these, coupled to the increase in expenses by extension of line, the constant addition of new subscribers, and the destructive sleet storm last Fehruary, prompts the company to decline o consider a reduction.

Manager Joynes said in regard to the company's reply that it spoke for itself. That he knew nothing of any other rate that might be offered Jackson, Tenn., the man for kidnaphy any other company, but that his company gives a complete service in the county and city for its present river by means of a sail.
